

PROFIT SECOND TO PRODUCTION.
Industrial Chiefs Working to Prevent Slump.
Price Stabilization Board Purpose Similar.
Business Outlook Discussed by Secretary Redfield.

WASHINGTON, Feb. 16.—The heads of many industries have agreed to operate without profit for the next few months in order to prevent business stagnation, was announced by Secretary of Commerce Redfield tonight in discussing the work of the price stabilization board, the creation of which he suggested President Wilson has approved. "I am far from being an alarmist, but we should not shut our eyes to the fact that the nation is passing through a critical period in its history," he said. "The most critical weeks of this period are just ahead of us. There already is unemployment in the North. This year the number of idle men is about 1,000,000, though not as large as it has been in some past years of industrial depression. The number of those idle promises to be increased through the demobilization of the troops. It must not be increased. There is any rational way to prevent it through the further closing of factories. It cannot be too strongly emphasized that the proposal that the government shall co-operate in the determination of fair prices on commodities and in stabilizing the prices through government purchase in no sense a price-fixing program. No one would use any sort of compulsion to adjust the price schedules arrived at. If producer can find a market for his merchandise at a higher price than one can prevent his being free to avail himself of it. If a consumer is able to pay below that price, he will be his privilege to do so. "Nor is the proposal an effort to maintain prices at their pre-war high levels. On the contrary, it is an indication that it will operate to bring about a substantial lowering of prices. "One of the leading industries of the country, the product of which is used in every State to produce commodities which everyone consumes, has announced its willingness to make immediately a reduction of nearly or quite 25 per cent in price. It awaits only assurance that in making this reduction it will not be forced to a charge of unfair competition with smaller producers in the same line. "I have been assured by leaders of many lines of industry that they will be willing to operate at a loss for two or three months, if they can help to start commodities moving and thus free American business from the stagnation which has befallen it. In fact, a great many companies are now operating without any surplus of profit; operating, in fact, with the prospect of having to pay war prices for labor, piling up losses for which they have no immediate means.

COW FOR COW, HOOVER'S PLAN.

Make Germany Restore Stolen Herds, He Urges.

Huns' Utter Failure to Show Repentance Scored.

Relief Director Doubtful of Their Redemption.

(BY ATLANTIC CABLE AND A. P.)
PARIS, Feb. 16.—Herbert Hoover, director-general of the International Relief Organization, addressing the Anglo-French-American Club last night, made a novel proposal regarding one form of German reparation. "For four years," he said, "we have maintained a stream of condensed milk and other children's foods into Belgium and Northern France. There are more than 10,000,000 European population greater than to rob them of their dairy stock, for on that depends the feeding of their young. "There is one reparation that the Germans should be compelled to make above all others, to the devastated countries they have pillaged, namely, the restitution of cow for cow, sheep for sheep, and pigs for pigs. It is not sufficient; children cannot be nursed on money. "Speaking at a dinner of the Circle Volney earlier in the evening, Hoover reviewed the work of the commission of relief in Belgium and Northern France. He related the experience of the American delegates with the German administration of occupied territory, and despite the depth of feeling which he had from two and half years of intimate experience with this ruling class, he was not prepared to say the German race was beyond redemption or that it was not the duty of the Allied countries to endeavor to build up that people to such degree as would warrant their admittance into the League of Nations. "There is perhaps one step outstanding today in their progress in that direction more lacking than any other," said Mr. Hoover, "and that is total abstinence from any expression of regret. If the seventy millions of Germans were to shed the tears of Niebuhr for the next thousand years they could not wash away the human misery for which they have been responsible in Belgium and Northern France alone. "The population of the occupied territories, after four years of endurance, have come out alive and healthy. They are, however, suffering from a very natural mental apathy. It will be months before they recover their initial mental alertness. The food situation in the Allied world has now passed all danger, but the armistice finds us confronted with enormous food problems of two hundred millions of people dominated by Germany, and again solid action by the associated governments becomes necessary."

BIG REWARD FOR WOLF.

(BY A. P. NIGHT WIRE)
SALT LAKE CITY, Feb. 16.—One lone wolf in San Juan county, Utah, has played so much havoc with live stock in the southeastern part of the State that a reward of \$1000 has just been offered for his hide. Efforts to trap the predatory beast have proved unsuccessful, and stock raisers have learned that one animal was responsible for all of the depredations. The wolf in question has been shot at numerous times, but it has the cunning of a fox, and the wily ways of a coyote. Poison and traps have been overlooked. The reward of \$1000 is for the wolf, dead or alive. The reward was posted by the live stock association.

Numerous smaller gatherings are also scheduled. MILWAUKEE. (EXCLUSIVE DISPATCH.) MILWAUKEE, Feb. 16.—The performance of a German play at the Pabst Theater tonight has been called off. The play was planned as a benefit for members of the old German stock company, which gave a steady performance for many years. After a citizens' mass meeting was held and demands presented to the Pabst Theater by William George Bruce, secretary of the Association of Commerce, a meeting of the board of directors of the German Theater Company adopted resolutions as follows: "The board of directors recommends to the actors to postpone the benefit performance until peace is declared. This recommendation is made to protect the interests of the theater from possible insults and indignities." Circuit Judge William J. Turner, 71, died at his home following a stroke of apoplexy. He had been active on the bench for nearly a score of years and was forced to leave his post about a month ago, but heard court matters at home up to the time of the final stroke on Friday. Capacity operations at the Milwaukee assembling plant of the Ford Motor Company will be resumed March 1. A. W. Stern, who has been in charge of the army bakeries in France, will return home Monday. Henry Paul J. Broderick, who was active with the first gas regiment, is returning home. At the time of his return he was three miles from the Belgian border and was under heavy machine-gun fire when the Germans announced that orders had come to cease firing. DES MOINES. (EXCLUSIVE DISPATCH.) DES MOINES, Feb. 16.—The police are baffled by the mysterious attack on Mrs. Caroline Wilcox here, last night, who was found in an unconscious condition in the residence east of the city. Train service, which has been demoralized by the storms in Kansas and Nebraska, was restored today. A two-day conference on "rebuilding the world" will be held here tomorrow, by Methodists from all parts of the country, including several bishops and other men high in the councils of the church. ST. LOUIS. (EXCLUSIVE DISPATCH.) ST. LOUIS, Feb. 16.—The body of Capt. Charles K. Seely, 25, instructor of physics at Western Military Academy, was found near the Wabash tracks at Mitchell, Ill., twelve miles north of St. Louis, Sunday morning. His feet were severed at the ankle and the skull fractured near the right temple. The number of new fractures in St. Louis last week more than doubled those of the week before—246 cases being reported, as against 121 the preceding week. Twenty-one deaths occurred from the disease last week, three more than the previous week. MINNEAPOLIS NEWS. (EXCLUSIVE DISPATCH.) MINNEAPOLIS, Feb. 16.—More than 2000 visitors were at the Northwestern Automotive and Industrial Exposition when the doors were thrown open at 2 P.M. yesterday and exhibition officials predicted the largest first-day crowd ever assembled at any show in Minneapolis. At least 20,000 are expected during the afternoon and evening. Minnesota's monument to men and women who served in the world war probably will be a memorial hall, but whether it will be located in Minneapolis or St. Paul remains to be decided. LUTHERANS' PART TOLD.

A mass meeting in which thirteen Lutheran churches of the city were represented, was held yesterday afternoon, in the First English Lutheran Church, Eighth and Flower streets, for the purpose of advancing the local campaign, as a part of the National Lutheran Council's work for reconstruction and sustaining the Lutheran churches in European countries directly affected by the war.

Rev. C. E. Hoffsten, western field secretary of the National Lutheran Commission, was the speaker. It was decided to hold another mass meeting at 3 p.m., next Sunday, in the same church, when the address will be given by Dr. Julius Lincoln, pastor of Angelica Swedish Lutheran Church, who has been engaged in war work for the government. In his address yesterday, Dr. Hoffsten said:

"The Lutheran church has united with a dozen other Protestant de-

nominations in America for a \$10,000,000 drive, to be conducted from the 16th to the 26th of this month for the following purposes:

- "Maintaining pastors to assist the regular chaplains in ministering to the soldiers and sailors, especially the sick and those recovering from wounds.
- "Supplying Bibles and other books, equipment and emergency funds to army and navy chaplains during the period of demobilization.
- "Assisting church colleges to re-

"The Lutheran church has done exceedingly commendable work in the camps and naval stations of the United States since America's entrance into the world war. A year ago she raised \$1,300,000 for this particular work. She has had about 250 pastors at different camps and cantonments laboring zealously for the moral and religious welfare of the 225,000 Lutheran men in the service of their country."

"Many of our people had announced as the great guiding principle of his life, these words, 'For to me to lose all is to gain all.' And this is the ideal that every thoughtful person must also have before him. The Lord of the apostle revealed to me on another occasion he said, 'I must also have before me and read that at another time.' The Lord stood by him and said, 'be of good cheer, for thou shalt be justified concerning me at Jerusalem so many things thou bear witness also of me that I have said.'"

**REV. M. HOWARD FAGAN,

"Every true Christian bears in his heart the ideal of Jesus Christ, and this type of sinister propaganda that will sooner or later break down the walls of our city, and also lower the ideals for which they have been fighting."

"I do not go for pleasure nor for selfishness, if I go under God's sign, he holds before the young men the ideals for which our nation has been struggling throughout its history. I am here to tell them the things that are highest, and noblest, and truest in a Christian democracy; that we will help to maintain them, and that we will help to maintain democracy in America that will be a blessing not only for our own country, but for all the world."

"I am strictly religious man. Goodness breaks out in every body, sooner or later. Only the devil has a monopoly in this matter. The only person who is a sinner, whether one has it all over, to know it."

The latter, many think, is a true illustration of the church, because it is comprehensive. It embraces all sorts and conditions of people. The rich and the poor meet together; and the Lord is the Maker of them all.
